Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 5-8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 6.

Applicants' remarks are noted but the other invention drawn to an enhanced combination of Group I compound and another anticancer agent would support a separate patent and could be classified many places in class 514. ~~Accordingly~~, the restriction requirement is deemed proper and made **Final**.

The Masiero et al reference is cited to complete the record.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over the D'Amato '327 patent of record.

The D'Amato patent teaches applicants' compound thalidomide in a pharmaceutical composition for oral administration (see col. 13). The patent teaches that the thalidomide is administered at 0.5 to 50 mg/kg/day. (col. 13, lines 14-15). The average human is about 70 kg. Therefore, the range per day would be 35 to 3500 mg/day. This would be within the claimed range of 30 to 1200 mg (claim 2) and 50 to 800 mg (claim 3).

The patent does not specifically set forth an example of a pharmaceutical composition.

Accordingly, one skilled in this art would find ample motivation from the prior art *supra* to form a pharmaceutical in the claimed range of the instant application with a reasonable expectation that said pharmaceutical composition would be effective as a pharmaceutical. With regard to the intended use limitation, said intended use limitation does not render the composition unobvious. See *In re Skoner*, 186 USPQ 80 (CCPA 1975). *In re Kalm*, 154 USPQ 10 (CCPA 1967), *In re Halley*, 132 USPQ 16 (CCPA 1961) which are directly in point.

Claims 1 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 4 are improperly drawn to the same pharmaceutical composition.
Correction is required.
